

Job Opportunities

Company Profile

ProgenyHealth is a company specializing in care management solutions for infants in intensive care nurseries. We contract primarily with health plans, employer groups and other payers to manage the unique health care needs of their premature and medically complex newborns. We take pride in having one of the most comprehensive programs available, supporting neonatal providers and families throughout the first year of life.

AVAILABLE POSITIONS

Case Manager – NICU/Pediatric Nurse

Job Description

The Case Manager is a registered nurse managing the continuum of care for infants and their families. This process ensures that all health care resources are used efficiently and effectively. The Case Manager works in a telephonic managed care setting combining strong clinical knowledge and critical thinking to facilitate a care plan that will ensure quality medical care for the high risk member population serviced by ProgenyHealth based on national standards for case management practice.

The Case Manager will focus on empowering the family to support optimal wellness while advocating for necessary medical services. He/she will demonstrate strength in working independently as well as collaboratively within a team environment. An understanding of ProgenyHealth goals and outcome measures is important to the accountability of the Case Manager and the success of the member focused Care Management Programs.

ProgenyHealth currently has several openings for Full-Time and Part-Time candidates.

Job Duties Include:

- Making introductory calls to families to provide them with an overview of our services.
- Completing needs assessments for all infants in case management and developing care plans individualized to the needs of each infant and their family.
- Stratifying infants based on their needs at the appropriate case management level and providing frequent outreach calls to manage ongoing needs.
- Interfacing with the infant's PCP and other neonatal providers to assist with activities which can include coordinating appointments, transportation, medical equipment etc.
- Provides ongoing case management services to assist families after discharge as the primary contact to assist with care coordination needs throughout the first year of life.

We offer: competitive pay, generous benefits and a pleasant work environment.

Requirements

Skill requirements:

- Registered Nurse (RN) with a current, unrestricted license is required
- Five or more years of clinical experience as a NICU/pediatric nurse preferred
- Two or more years of managed care experience in a hospital, integrated health system or health plan in a case management and/or discharge planning role is preferred
- Data entry skills required. Must be computer literate.
- Excellent communication skills and organizational ability is required. Must be self-motivated and willing to learn multiple tasks. Must be well organized and able to prioritize tasks.
- Must demonstrate accuracy in spelling and documentation. Proficiency in a second language is highly desirable.

Interpersonal skills:

Ability to perform job functions with autonomy and be a self starter. Must possess excellent interpersonal skills, telephone etiquette and maintain positive communication at all times. Must have commitment to excellence in customer service.

To Apply: Please send resume AND salary history to HR Department, ProgenyHealth, via email: jobs@progenyhealth.com or fax: 610-832-2010.
