#### Biography

Dr. Ellen (Ellie) Stang is a board-certified pediatrician and in 2003, founded Progeny Health® to address the need for improved care management and health outcomes for premature and medically complex newborns.

Prior to founding ProgenyHealth, Dr. Stang spent her career dedicated to the pursuit of providing high quality health care to pediatric patients. Her career has spanned working in private practice where she was Co-Director of the newborn nursery, to working as a regional pediatric medical director for a managed Medicaid health plan. She received her undergraduate BS degree from Dickinson College and her MD from The Pennsylvania State University College of Medicine. She completed her pediatric residency at St. Christopher's Hospital for Children in Philadelphia.

She is frequently featured in the media discussing topics related to healthcare innovation, maternal and infant health, health equity, and NICU population health management.

#### ProgenyHealth

ProgenyHealth delivers an integrated, tech enabled maternal and infant care management solution that provides uninterrupted support from prenatal health, through 12 months postpartum, including any resultant NICU stay. By promoting predictable, equitable, and standardized high quality care journeys, we ensure healthier outcomes and lower overall costs for commercial and Medicaid health plans and large employers.
